Application Form: Supplementary Information (review this section prior to starting application)

Applicant Section:

For the Graduate award applications: select the program you will be in when the award starts. If you are an MSc student that will start a PhD in September, select PhD for example.

Award Section:

Please select all awards to which you will apply. You must select at least one. Clicking on the name of the award will take you to the Terms of Reference for that award.

Applicable to graduate scholarship application only:

Applicant Accomplishments (do not exceed one page*): Contributions described in this section may include academic, non-academic, and research achievements. For research contributions, the applicant needs to describe their role, the relevance of the research conducted, and the significance of the journal to the field (ex. intended target audiences). Other research contributions including patents and publications, research or technical reports, policy papers, clinical guidelines, etc., may be included. You may also provide background information on major scholarships or awards and their significance.

Examples of accomplishments that may be listed:

- Leadership roles
- Committee membership
- Supervisory experience (training of students)
- Development of graduate seminar programs
- Involvement in public, private, or not-for-profit sector activities
- Presentations as a guest speaker (public or invited lectures)
- Knowledge translation activities (including technology transfer or commercialization)

Publication List (do not exceed one page*). May include research contributions in the following categories:
• Published or in-press abstracts, refereed papers, books, and monographs
• Published or in-press contributions to a collective work and book chapters
• Research reports or reports produced for the government

The publication list should follow the format:
• Full authorship, as it appears, or will appear, in the original publication
  (applicant’s name in bold);
• Title;
• Year;
• Publication name and volume;
• First and last page numbers;
• Role in publication (limit of 2 sentences)

__________________________

**Supervisor Information:**

**Participation of Supervisor:** The supervisor should be providing this.

__________________________

**Research Project:**

**Project Lay Abstract:** Describe the project in a way that is accessible to a lay audience. If applicable, indicate how the proposed research can improve personal health, health of populations, and/or health delivery system(s).

**Project Summary:**
• The research project summary should be completed in collaboration with the proposed supervisor(s).
• The research project summary should be written in general scientific language, which is an important skill to acquire for future success in the research environment as applications are reviewed by multi-disciplinary committees.
• Include the specific hypothesis of the research and describe the applicant’s role on the project.
• The research project summary is among the most important parts of the application. Applicants and their supervisor(s) should ensure that it provides a concise account of the subject matter, an overview of each part of the research
plan, specific project aims, and the methodology. The summary should reflect the significance of the project.

- Do not include figures or tables.

**Other information:** Make sure to answer each of the sets of questions. If you answered yes to any of the first three questions, for each yes, make sure to provide in your application any ethics approvals or supporting documentation.

**Possible list of documents** (this might not apply to all applications):
- Application form
- Transcripts
- CCVs of applicant, supervisor, and if applicable co-supervisor
- Project outline
- Lay abstract
- List of participation of supervisor in HBI Education activities
- Any relevant ethics and biosafety
- Publication list
- Applicant’s accomplishments
- Reference list.

---

**Are sex (biological) or gender (socio-cultural) considerations taken into account?**
Indicate if sex (biological) / gender (socio-cultural) considerations are considered in this study. For a guide to sex and gender-based analysis, please consult the CIHR website. If applicable, describe how sex and/or gender will be considered in the research design (do not exceed half page*).

---

**For specific Awards:** (If possible, use the space provided. If not, you can answer on a separate page but please keep your answers concise)

**Spinal Cord, Nerve Injury & Pain (SCNIP) Grad/Postdoc Award** (if applicable):
*if you elected to apply for a SCNIP graduate or postdoctoral award = required document (attachment); if you did not elect to apply for a SCNIP award, this section is not applicable/attachment is not required.

**Mathison Centre Grad Scholarship/Postdoc Fellowship in Mental Health** (if applicable):
*if you elected to apply for a Mathison graduate or postdoctoral award = required document (attachment); if you did not elect to apply for a Mathison award, this section is not applicable/attachment is not required

**Brain CREATE Grad Scholarship/Postdoc Fellowship** *(if applicable):*
*if you elected to apply for a Brain CREATE graduate or postdoctoral award = required document (attachment); if you did not elect to apply for a Brain CREATE award, this section is not applicable/attachment is not required

**HBI Inspires Postdoctoral Award** *(if applicable):*
*if you elected to apply for a HBI Inspires Postdoctoral Award, make sure that your supervisor has made note of their EDI contributions and training philosophy in their section or has attached a separate page listing them.

As well, please note that a definition of low socioeconomic background can be found [here](#).

You are not required to identify which of the listed qualifications apply to your application. However, you might find it easier in your answers to identify those qualifications. Please note that your responses will be kept confidential and only used in evaluation to this specific award.
